

## **Advice to Gen. Tinyenvuza**

### **Where does Tinyenvuza get the power**

Who the hell is Tinyenvuza? What kind of power does he have to issue such dense conditions to open the CBS radio? I think in a civilized world no one should even waste a minute to respond to such ridiculous conditions from a maniac like that sick frail General

### **Things that Tinyenvuza should be addressing:**

Ugandans are sick and tired of your wasteful spending military can't do nothing government. In a situation you are about to see, Mr. so much concerned General, your government should have already come to the rescue of that helpless citizen of Uganda. In fact laws to cater for such conditions should have, long ago been enacted by your so called democratic government... but noooo; you are busy tormenting Ugandans to silence!! What a coward act that is!
