Posted by Musa

I have been writing about the various torture methods used by Museveni's notorious torture chambers. One method now stands out to be the favorite. Remember the article I posted a few weeks ago under **"Proof of torture"** I urge you to compare the victims wounds to the ones in the link below and see for yourself. Do not be fooled again that the police is investigating, none of these crimes are ever prosecuted and most of the times the victims who try to talk about the ordeals are often severely penalized for speaking out.
