Friday, April 02, 2010

This became a way of living in Uganda over ten years ago. It's just that then it was controlled abuse. Today the dictator has become so bold that human rights violation is his signature. No matter what you say what the international community does, this regime is determined to use it's brutal military to abuse the citizens of Uganda, this is just nothing based on what we know.

It is now clear to all Ugandans and the entire international community that that ruthless and brutal militarized police will be utilized to squash any civil disobedience or any kind of demonstration regardless!

Ugandans to the rescue

Friday, April 02, 2010

As poor unarmed civilians try to demand their rights back, they are met with severe and merciless response by the militarized police under orders of strong man Gen. Kale kaihura the police chief.

But what these dictators forget is that you can never break people's will with a Barrel of a gun. It never happened in the former Soviet union, never happened in South Africa, never happened in Iraq and sure Ugandans are saying to M7 "It won't happen here either"

With images like this what else are you waiting for to know that Ugandans are fed up with this tyrant museven? Women and children too have joined the fight and have taken it to the streets and homes, Ugandans need to be liberated and we promise you " We shall do it"

Friday, April 02, 2010

But what does it take a Dictator to know that people are tired of your iron rule?

Innocent citizens running for their lives upon learning that the notorious black mamba is coming. This is the masked brutal police that is solely commanded by military strong man Gen. David Tinnyenvunza. People are right to flee for their dear life since this force takes no prisoner to jail

As usual the tide has once again been turned against the Buganda Kingdom. The coward dictator feels threatened by the overwhelming love and respect people show their traditional leader. And as results the dictator is waging war against all kingdom infrastructure . This depicts the recent arsenal on the royal burial site allegedly set by Uganda government forces .

Aftermath of the infernal. People are saddened by what is left of the infrastructure that has been around since the 1800s. At the orders of the dictator the dead were burned.

Dictator Museven has weighed heavily on his brutal military police commanded by his crony Gen. Kaihura to silence Ugandans at any cost, whenever they demand their freedom.

This totaled hut has been around since the 1800s. All Buganda Kings are buried here. Because of Museven's jealousy against the Bagandas who are the majority, he is determined to wipe out their kingdom and all of their history. Here you see young Buganda kids as sad as they look.

To prove that the dictator has conquered the Buganda Kingdom, against the will of the Baganda and the royal family, this tyrant forced it's way to the crime scene flanked by a gang of armed Nyarwandas which upon entrance murdered 5 youth that day. Good that we have such photos for future prosecution.

The good thing out of Museveni's atrocities against Baganda is, He has united us! Muslims/Cristians and Protestants no longer identify each other by religion but by our tribe which shall never change. Preserve our culture we shall fight united against the dictator untill his government is gone.

Terror that mostly Baganda kids experience on daily basis. This is what we have to fight this Dictator to save our children. Look at this picture closely! Why are these little unarmed girls traumatized? What about the lady in the far right corner? These people came to mourn the burning of the ancestor's tombs and so they brought their kids, why does that father have to be humiliated in front of his family?

The blaze that took out the Buganda royal tombs. The Government is strongly suspected to be behind the arsenal.

Museveni displaying his military might after burning down the royal tombs. The army beat up and killed innocent unarmed civilians that day.

Poor people dragging away their comrade who has been shod and killed by the Black mamba. I can only assure you that Help is on the way

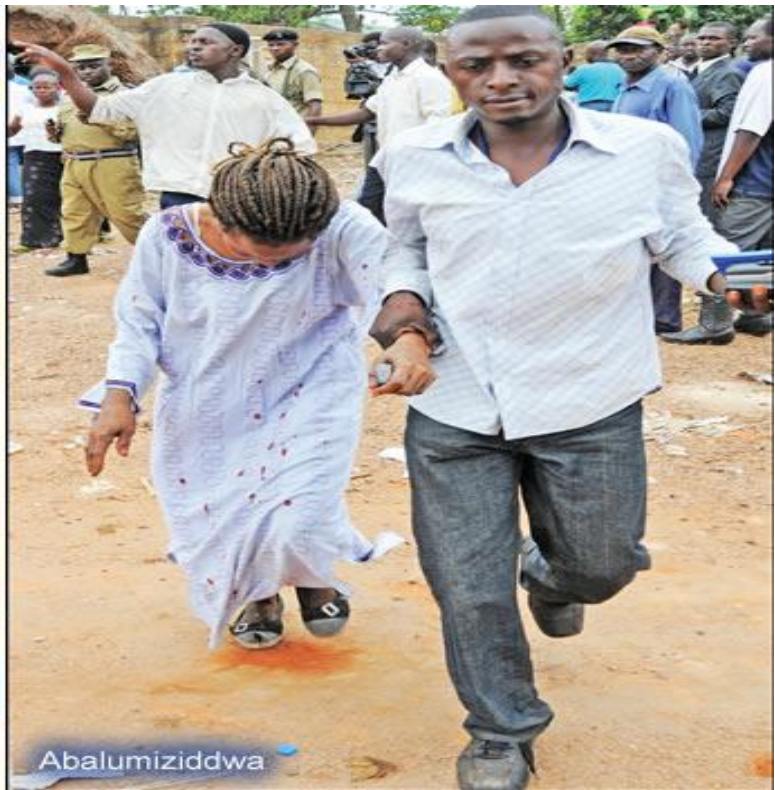

This why military force remains the only option left for Ugandans to liberate our freedom. Dictators like Museveni only understand force as the only communication method. Our brothers and sisters have been living like this for over 25 years! No more count is needed

This guy is extremely lucky to only escape with a bleeding arm. Five innocent civilians were only shot dead just less than an hour ago. No exception woman or man these thugs will just trash you any how.

No hospitals or schools but terror armour trucks are in abundance.

Help is on the way

Ugandans to the rescue

Friday, April 02, 2010

This man you see being scuffled has every right to be in this place, He is the 70 year old former Buganda prime minster, why do these thugs have to ruff him up like this? By the way this is the Black mamba at work.

You would think that only the youth wre targeted, no no, no how old do you think this fleeing man is? Museven has trumatized our people and abused our elders for so long and I believe is the time we stand up against this dictatorship.

Help is on the way

Ugandans to the rescue

Friday, April 02, 2010

For those who still doubted Museven, look and see use your brains, do you think this is gona end at one time or we have to act as citizens? No one from the outside is gona come to our rescue unless we do it ourselves
