Facts about the regime

Posted by Musa

Presidential candidate Kizza Besigye has said President Museveni's regime will enter in the Guinness Book of World Records as the first government in the 21st century to have set up a ministerial committee to tackle jigger infestation.

"There is no doubt that Museveni has made a record as the only President to have set up a ministerial committee on jiggers," Dr Besigye told a rally in Tororo Town on Tuesday. *Mind you this is his way of manipulating the Western world as a concerned leader who is doing all he can to save his people, that way more aid comes in!*

"His regime will enter the Guinness Book of Records for that. You do not need a ministers' committee to oversee the exercise of spraying peoples' legs. The problem of jiggers is a manifestation of the high levels of poverty that majority of Ugandans in the countryside are experiencing," Dr Besigye said. *Not only those who live in the countryside but all those who live in Uganda*

"You cannot be in power for 25 years and your people are dying of jiggers but you still gather the energy to move around bragging that you are the President of Uganda, the commander in chief and you do not feel ashamed." **TRUE**

The Inter-Party Cooperation flag bearer asked residents of Tororo District to vote out President Museveni whom he accused of living an extravagant life as majority of Ugandans were dying because of poverty and jiggers. *But elections or votes won't remove M7 from power, only the barrow of a Gun will as he himself put it.*

He said mass poverty, corruption, unexplained opulence, bribery, and poor infrastructure characterizes the lifestyle of Mr. Museveni's ministers and other "well-connected" individuals in his government. Dr Besigye said if elected, he will sell the Shs84 billion presidential jet and use the proceeds to set up a new development project to fight poverty. ***I highly doubt the difference!***
