Does the Brig. know something most of us do not know? Ochan

Museveni accused of killing Sudan rebel leader

Posted By Musa

George Athor: Controversial in life and death

Here we go again! Ugandans dictator has once again been implicated in yet another assassination on the African continent. **Where in Africa is murder, there is Museveni.** Isn't it ironic that Museveni has been the prime suspect in 78% of all assassinations in East and central Africa? He is the only suspect in killing Uganda's military officers who had faithfully served him, but due to his insecurity and jealousy, He killed them! Just like Idi Amin

The surviving leaders of one of South Sudan's main rebel groups, the *South Sudan's Democratic Movement/Army(SSDM/A)*, have accused Uganda President Yoweri Museveni of killing their leader George Athor. In a statement seen by *Uganda Correspondent*, which was signed by Maj. Gen. Bapiny Monytuil, the deputy leader of the military wing of SSDM said:

"...George Athor was killed by Ugandans. He left from his headquarters on Saturday with Ugandan plane to meet President Museveni to discuss how Uganda could assist the people of South Sudan to resolve the ongoing conflict with Juba's regime. George Athor left with Major Thomas Duoth Makuach who was his assistant for Kampala. He arrived in Kampala at 2pm Saturday afternoon. He was scheduled to meet President Museveni on Sunday."

In his explosive finger-pointing statement, Maj. Gen. Bapiny Monytuil then goes on to say that, *"...we talked to Athor and Thomas Duoth when they arrived on Saturday. But we lost contact with them from Sunday onwards until we saw their dead bodies on South Sudan TV. President Museveni killed George Athor."* We must point out however, that at this stage, Museveni is

only facing an allegation that may, or may not be confirmed by a competent court of law.

Even though the Sudanese rebels have not yet adduced sufficient evidence to pin President Museveni in the alleged assassination of their leader, they have nonetheless made crystal clear that they will seek revenge. *"...The SSDA and SSLA military High Commands will have emergency meeting tomorrow to devise plans to revenge the killing of Athor. He was killed by Ugandans and Museveni will dearly pay for that. The SSLA and SSDA will teach Museveni a lesson he will never forget in his life"*, the statement read in part.

According to the statement, it appears the late rebel leader George Athor also had grave reservations about meeting President Museveni. *"...The war will continue until we liberate South Sudan. George Athor told us before he left that should anything happen to him in Uganda, the rest of the officers must continue the struggle until Salva Kiir is overthrown. The struggle will continue as usual"*. Maj. Gen. Bapiny Monyтуil said in the concluding part of his statement.

This is the second time in less than 10 years that President Museveni has faced allegations of involvement in the death of senior Sudanese leaders. Before South Sudan got independence this year, Sudan's late Vice President Dr. John Garang had also been killed in President Museveni's private helicopter after it crashed en-route to Juba from Uganda where Garang had been meeting President Museveni. At the time, the Ugandan government denied any involvement in Garang's death.

A statement issued by the office of South Sudan's Vice President Dr. Riek Machar confirmed George Athor's death, but also added that the SSDM rebel leader met his death when he was trying recruit more fighters around South Sudan's borders with the Democratic Republic of Congo [DRC], Uganda, and Rwanda.

The government of Uganda is yet to respond the latest allegations. END: Please login to www.ugandacorrespondent.com **every Monday** to read our top stories **and anytime mid-week** for our news updates.

kayihura and muhozi . These are the most wanted criminals in Uganda, for the crimes they have committed against humanity, such as; shooting demonstrators with live bullets, arresting and charging people with treason and terrorism for just walking to work, corruption , rigging elections, buying votes with tax payers money, intimidating, arresting and causing harm to opposition leaders. Now, an army is coming from the North, to help us arrest museven and kayikula. Officers and men , in the uganda armed forces, should abandon museven , and join the coming forces, to crash kaguta, and his fake generals. The coming forces will non't show mercy to those who will try to put any resistance. Officers and men, who are non't from museven's tribe, should defy his orders, and leave his tribe to defend him. Don't leave your weapons behind when defecting museven's army. As we wait for the last word, from Major General Bapiny, all ex Ugandan Army, in West Nile and Moyo, should assist Major General Bapiny's Army, with all information regarding; museven's army movements and their locations. The coward dictator's time has come to either die like Gaddafi, or face the ICC like Gabgo. General Bapiny, s army is known for it's accuracy in rockets which we need most. Fellow oppressed Ugandan, take courage the good Samalitan is on the way.
