All this has happened in only one day and crime committed in less than 45 Minutes. We have left out January through March 2010 crimes even though so much happened in that period too.

Museveni's armed thugs round up innocent civilians to terrorize them after He burned down the royal tombs.

Help is on the way

## Ugandans to the rescue

Victim killed by the (UPDF) at the orders of Muhozi the eldest son of dictator Museveni, this is one of 17 unprovoked civilians murdered that day. *May all their souls rest in peace*

You look at these poor people and wonder if not me, who else is coming to their rescue? Thank God that these young men & women have not given up hope! *Museveni will go*

An innocent man beaten by the so called Uganda people's defense force, Commanded by the president's son simply because he was carrying the picture of his tribe King! We all know how jealousy the ruling dictator M7 is of the King

These un uniformed thugs are training on real live people for the upcoming 2011 election which Museveni is determined to rig at any cost. This incident at the tombs was just a rehearsal compared to what is to come during and after the presidential elections!

A government soldier beating up mourners last March, regrettably they just have to take it since they can't fight back nor can they sue. It's now a way of life in Uganda

## Ugandans to the rescue

We all wonder why the dictator had to deploy and utilize such force at the royal tombs. May be It is true he was trying to intimidate and silence whoever suspected him. *Every dog has it's day*

A uniformed coward thug pointing a gun at a news reporter who was video taping all the violence, unfortunately his camera was crashed and anything after that is a mystery!

## *Ugandans to the rescue*

All these people you being forced unto the ground are mere mourners, but the dictator was covering up something, many civilians paid a severe price. Good enough all criminals are on record. Just a matter of time and they will all face justice

I am sure that based on what you have seen so far, you will agree with me when I say “Dictator Museveni must go” and very soon! This is why. *But his not going with a simple ballot as a few think, we have to force him out it is the only option.*

## Ugandans to the rescue

A total number of 17 people were killed in less than 45 minutes in an unprovoked attack by the Museveni's forces at Kasubi royal tombs. *We should all know that unless we band together as a unit to rid ourselves of this tyrant, no one is gona do it for us.*

Another *UPDF* victim on that fateful Masiro royal tombs day. Although it seems like the dictator has the upper hand now, *I can assure you that his days are numbered.*

You would consider yourself blessed if you walked away with only a bleeding arm that day. Women and children were not spared the brutality.

With no medications in the hospitals, no useable health facilities, terror APCs like these and many others are in excess and are primarily used by Museveni to subdued civilians.

## Ugandans to the rescue

The thug you see with a whipping cane belongs to the notorious “ISO” a Uganda security organ specializing in civilian, torture, humiliation, degrading and often murder.

That 77 year old running from agents of the wicked ISO & CMI who indiscriminately thrashing every moving target! Surprisingly the fleeing old man lives and belongs here unlike the aggressor.

This why Ugandans pay taxes for! Compare this regime to that of Idi Amin and Obote and honestly tell me who has traumatized our women and children the most.
