Museveni's Government has been named the most corrupt and dysfunctional on the pearl of Africa, by the United Nations watch dog. The Un Agency that made this accusation based its conclusion on various failed government infrastructure.

Here at 'UTR' we have always reported on this failed leadership, pointing out to Ugandans the theft and looting tactics employed by the first family that enable their **LOOT**. Here are some of the tricks. First they set up a fictitious company foreign or domestic, register it with relevant paperwork and then award it with millions of dollars' of government contract. Somewhere along the way an obstacle is manufactured by the very government agent or officer who awarded the contract to this phony company that stalls the progress of the alleged job.

Then what follows is a law suit filed by this bogus company against the government for breach of contract. The trial takes place uncontested and the judgment rendered in favor of the plaintiff, proceeds is then shared by the so called contractor and the deal maker who is the government agent!! Imagine intentionally bankrupting your own country to extinction! Don't be fooled that the president has no idea of what is going on, we have overwhelming evidence that directly implicates him in such schemes and all this is done with his blessings. Don't take my word for it, please read
