First it was the Acholis in the North that experience the brutality of dictator Museveni and all the years we thought, boy they deserved it! Not knowing that it was not them that were the problem but just a mere fact that the dictator had to weaken them first, in order to implement his ruthless plans without any interference.

As soon as he crushed the northern rebellion with the help of the rest of the country, dictator Museveni embarked on his plan of looting Uganda blind and as he was almost succeeding, he heard of the armed Karamojong and so he had to devise a quick excuse.

Cattle rustler

He wasted no minute in attacking the Karamojong, in his bid to disarm them and steal their land as well by appointing his wife the Karamojong minister. All the precious minerals are now controlled by the first lady as the Karamojong's blood is shed. Batoro/Bateso/Basoga/Baked/Banyoro and all others be warned, you are next.

This is most stupidest excuse I have ever seen/heard for attacking innocent civilians.

Army hands over 600 recovered cattle

A joint force of the UPDF and the Police has recovered 673 stolen cattle, donkeys and 20 guns from Karimojong rustlers.

The Third Division commander, Brig. Patrick Kankiriho, on Sunday said 150 suspected culprits are being prosecuted over the theft. Those who were found with guns will be tried by the army court.

Kankiriho said the animals would be used as exhibits in the courts.

A total of 337 animals had been stolen by the Matheniko of Nadunget sub-county in Kotido, while 334 had been grabbed by the Jie from Panyangara sub-county.

The groups, he said, carried out cross-raids and stole each other's animals.

Kankiriho explained that 234 of the cattle and nine donkeys had been stolen from the Bokora, 40 from the Matheniko and 39 from the Pian.

Among the 337 stolen from Kotido, 262 belonged to the Jie, 63 to the Bokora and 12 to the Pian.

At least 108 Jie and 42 Matheniko have been charged over the raids.

Kankiriho lashed out at the Karimojong MPs who said the UPDF had killed civilians in the operations. He said the MPs are deliberately telling lies for selfish reasons.

Kankiriho said the operation is one of the several phases of the disarmament exercise intended to restore law and order in the region.
