

## Ugandans to the rescue

Friday, January 29, 2010

### Link Source

Uganda: So, Who Killed FDC's Jjulunga? I urge Museveni to stop shifting, especially murder blames to some other innocent civilians. Committing murders and assassinations and blame them on someone else has always been a method of operation for African dictators. A few examples in Uganda: **The recent assassination** of his *Maj. Gen Kazin* which he stupidly blamed on his girl friend. **The poisoning to death** his Chief military intelligence officer, *Brig. Noble Mayombo* and blamed it on some mysterious illness. **The countless innocent civilians in Luwero triangle** which he blamed on Apollo Milton Obote. **The burning down of Kicwamba school** and killed *numerous students* which he blamed on the ADF rebels. **What about the Kibwetere mass graves** a few years ago, which he blamed on religious cult? **Do you remember** this one? Click on the link. The list goes on and on and Museveni should and will on day answer for it <http://allafrica.com/stories/200906110590.html>
