## **Who is Betty Kamya fooling?**

### **Kamya addressing party members in Lira yesterday**

**Posted by Musa.**

THE Uganda Federal Alliance (UFA) president, Beti Olive Kamya has said her party would not take part in any demonstration organized by presidential candidates who lost in the February 18 polls.

Kamya instead said, those who lost in the poll should go to the grass root and establish their party structures as they wait to battle the ruling National Resistance Movement (NRM) party in 2016 elections. *This might come as news to some of you but we here at Ugandans to the rescue have constantly told you the truth about this individual*

Kamya was in Lango sub region to attend thanks giving prayers for her party official, Ndugu Omongo who was kidnapped weeks ago and was found dumped in a coma by the road side. **Kamya has never been a true opposition to Museven in fact it is alleged by credible sources that Betty Kamya was financed by dictator museven as a decoy opposition candidate**

Addressing her party members on Monday at Grand Pacific Hotel in Lira, Kamya said the complainants must have enough evidence to stage a demonstration if their

votes were rigged. *I remember some time late last year when she was a guest at radiomunansi.com, many callers disagreed with her view and method of approach to combating dictator Museven's electoral fraud.*

"I am wary of demonstrations because they can turn out catastrophic to the people you are leading. I don't want to lead people to suffering or to be killed," she said.

**If true that Kamyia is wary of people's property being destroyed or lost, Sulaiman Kiggundu never organized any demonstrations against Museven but he lost it all to Museven and family, what about those who have lost land, isn't that the property kamyia wants to protect? How about the many Schools, markets, the royal tombs that all were set ablaze? Isn't that the property she wants to protect? Well I got news for Kamyia B, that no demonstrations were ever organized by those victimized in those crimes, yet Museven did it.**

She added: "People of northern Uganda and Luwero have seen wars, those in Kampala have witnessed the impact of demonstrations so I am not supporting this move because I don't want to see the number of widows and orphans increase." **This woman is not a Ugandan let alone a Muganda, It is confirmed that her father is/was a Kenyan Citizen, where she got the kamyia name only her can explain**

Giving an example of the NRM party that had a committee of 30 people per village; Kamyia said most political parties did not have any structure at the grass root level.

She noted that those complaining should rely on the outcome of their party tally centres, saying if their tally centres did not give them a winning result against the winner, then there was no need to think that they were rigged.

She said her party looks at five year terms as very short

and that they had started. entering deep in the villages to ensure that their party had structures in the village to compete in the 2016 election.

Kamya also urged Ugandans to reject plans to have presidential years in power extended from the current five years to seven as is being discussed.

She said the plan that was being moved by MP James Kakooza was plan "B" for a life presidency project that was nurtured years ago.

"This will put Ugandans under the dictatorship of one man, which I think will be totally rejected by the people of this country," she said.

I appeal to all Baganda and Ugandans alike, these are the individual confusing us and only working to satisfy their stomachs at the expense of our country. She has already been paid by Museveni and done her job. Next is to discourage you from using the only option available to out them both
